

# IS 145 – Website Technology

## **Programming Project 10**

### Project Directions

This is an individual programming project.

For this project you will complete Tutorial 10, Case Problem 2, Harpe Gaming as described on pages HTML 799 through 801. You will write an HTML program named hg\_game.html and a JavaScript program named hg\_report.js to display information for a game and its customer reviews.

### Grading

#### Executable files

- Create a folder named LastNameP10 (in zip format) that will contain the HTML, CSS, JavaScript and supporting files for this project.
- Upload your zipped folder in the course Blackboard page content area in the assignment named Upload Completed P10 Folder.

70 points possible
